

**REMARKS**

Claims 1-39 are pending in this application. Claims 1-39 are subject to a Restriction Requirement.

The Office has asserted that there are three groups of claims in this application. The first Group, Group I, contains Claims 14-15 and 34-35, drawn to a subcombination of phase plates and cover, classified in class 335, subclass 201. The second Group, Group II, contains Claims 7-13, 16-20, 27-33, and 36-39, drawn to a subcombination of side limit switches attached to a main body and a main body mounting plate, classified in class 335, subclass 159. The third Group, Group III, contains Claims 1-6 and 21-26, drawn to a subcombination of a main body mounting plate, classified in class 335, subclass 202.

In response to the Restriction Requirement set forth in the Office Action, Applicants, with traverse, elect for prosecution in this application all claims belonging to Group II, i.e., Claims 7-13, 16-20, 27-33, and 36-39.

Reconsideration of the Restriction Requirement imposed under 35 U.S.C. § 121 is respectfully requested. The Restriction Requirement is traversed because the inventions set out by the claims in Groups I, II, and III are clearly related. Applicants submit that a thorough search and examination of any claim group would be relevant to the examination of the other group and would not be a serious burden on the Examiner. For at least the reasons set forth above, Applicant respectfully requests that the Restriction Requirement be withdrawn.

In view of the foregoing remarks, all the claims now active in this application are believed to be in condition for allowance. Reconsideration and favorable action with respect to all the pending claims is respectfully solicited.

Respectfully Submitted,

Patrick W. Rasche, Reg. No.: 37,916
